Next week, December 4-8th Freshmen and Sophomores will be FAST testing which is the reading test that Sophomores must pass for graduation. FAST is an adaptive test in 3 progress monitoring parts PM1, PM2, and PM3. You took PM1 at the start of the school year in August, PM2 is in the beginning of December next week, and PM3 is in the spring. Adaptive means that growth is measured between each of the 3 tests. This means that PM2 is actually the beginning of PM3 so doing well next week means your test may be easier in the spring. Also, we are incentivizing PM2 for testing students who show a level of growth from PM1 in August to PM2 next week, with a field day Field Day on December 19th by invitation only.
