

IMPORTANT

Spring 2022 State Assessments

Despite previous years' COVID waivers and the recent press announcements, **Spring 2022 State Assessments will occur in Grades 3-12 and all Graduation Requirements are in place for seniors.**

The **Graduating Class of 2022** will have to earn a score for both the 10th grade ELA and Algebra 1 or Geometry EOC. Concordant scores from PSAT (math only), Sat, and ACT will be accepted.

Non seniors will have to pass the 10th grade ELA & one Math EOC. All 9th, 10th, and 11th graders should be working toward a passing score on the currently available Florida and National Assessments.

For **Juniors and Seniors** who have not passed state assessments, you can take the SAT and potentially earn a 'concordant' score that will satisfy this requirement.

We are offering **SAT School Day** on **March 2nd** for All **Juniors**.

Seniors who still need a concordant score will be eligible for an **SAT School Day** opportunity on **April 26th**.

Contact your school for student specific questions.
